***Academy of Fine Arts Film Festival – 1<sup>st</sup> Edition.***

**Subject:** Realization of an international film festival for students of the Academies of Fine Arts - ***Academy of Fine Arts Film Festival – 1<sup>st</sup> Edition***

The ***Academy of Fine Arts Film Festival*** is an international film festival that hosts short films produced by the students of fine arts academies in Europe.

The festival, organized by the Academy of Fine Arts of Naples and sponsored by Comune di Napoli - Mediateca Santa Sofia - Department of Youth Policy of the City of Naples, with financial support from the EU project Erasmus, has the following objectives:

1. To facilitate and encourage the promotion and movement of European audiovisual and cinematographic works created by students of the Academies of Fine Arts in the context of audiovisual programs in Europe and in the whole world, therefore playing an important role in the promotion of the works and the networking of professionals;
2. To improve public access to European and international audiovisual works created by the students within the European Union;
3. To identify new ways of fruition of the products presented at the festival by recognising their educational value for students and graduates of the Academies in Italy and Europe;
4. To improve skills within the technology sectors for video pre-production, production and postproduction. To provide the tools for an understanding of the iconic language, to appreciate the artistic experiences related to it;
5. To effectively implement the rights of younger generations to acquire the tools to understand, express and communicate using a modern and technological language;
6. To develop new forms of communication, branching from the traditional one to the new mass media communication. To allow the young student to live as a protagonist and not as a simply spectator;
7. To proceed with the analysis and critical assessment of the socio-cultural and artistic phenomena, using the modern tools of communication through images.

The organization aims to create a Web container to use as a place of information, promotion and action, (Festival Facebook Page, dedicated e-mail box) and a website that will be used to collect the video contributions of the authors - which will form a significant part of the festival as interactive - encouraging social interaction and providing information on the activities in preparation and execution.

The Steering Committee will select one audiovisual work for each EU country taking part in the event, with an overall total of 28 works. The short films selected will be screened during the event.

The festival will be organized in collaboration with various European Academies and will be held at the Academy of Fine Arts of Naples (Teatro Niccolini and the Aula Magna), with web streaming that will provide the opportunity to all the other academies involved or interested in the project to follow the event live.
