

International Exhibition on Art and Disability

Second year

Eleanor Worthington Prize

premioeleanor.it

The Eleanor Worthington prize is awarded by the Premio Eleanor Worthington Association for work in the visual arts on the theme of disability.

Eleanor Worthington was a severely disabled Anglo-Italian young woman who was born in York, and died in Urbino, Italy, at the age of 26. Beneath her disability she was of high intelligence and had a forceful and engaging personality. Eleanor's family, friends and school wished to transform her individual story into a collective experience with the aim of raising public consciousness of the issue of disability. The Eleanor Worthington prize was established for this purpose.
